Grants Program Receives Approval from Opposition Leader

The Community Recreational Grants Program is getting the thumbs up from the Leader of the Opposition. Cartwright L'Anse aux Clair Liberal MHA Yvonne Jones says 10 recreation committees in her district received grants between \$2,500-\$4,500. The Department of Tourism, Culture and Recreation announced over \$500,00 in grants earlier this week to support more than 200 small community recreation programs. Jones says she's happy to see increases in the application based grants, noting it's something she has advocated for in the past. Jones says this type of investment not only promotes healthier living, but also plays an important role in helping to sustain rural communities as they struggle with issues of out migration and employment, and strive to preserve their overall integrity.
