## Greater Accountability Required at School Board: Joyce

The MHA for the Bay of Islands says there needs to be far greater accountability at the Western School District. Liberal Eddie Joyce was responding to the Auditor General's report which identified concerns over compliance with the Public Tender Act, a lack of documentation on hiring and compensation, and the purchase of items that could not be located. Joyce says as a member of the Public Accounts Committee he will request that the committee hold hearings in Corner Brook and question the Western School District on the Auditor General's findings.
